Comments	04/05/2021 Lorraine Davis. We already experience issues with the current refuse arrangements at these flats. The domestic bins are regularly being used by nearby businesses and this leads to capacity issues for the residents. The bin store is very small with very difficult access for the number of bins already in situ. A further 1100l container which would be necessary for the additional number of flats applied for and this would put even more pressure on the existing space. The domestic properties do not have their own recycling facilities and are able to use those at Maynard Place but this may limit the materials the residents are able to recycle i.e.no food waste bins .
