Comments	Lack of adequate parking for staff and visitors This will force people to park in the surrounding roads which are already being used by workers from the business park . A full impact assessment on parking and increase in cars/ traffic in the surrounding residential roads needs to be undertaken when the Hatfield One hospital is up and running to be able to fully assess the impact this proposal may have locally 2) Houses immediately opposite this site will be overpowered by the size of this construction , the height of the building is out of keeping with the surrounding area and businesses
