Comments	<p>This application is for the erection of a 2 mtr high fence on Green Belt, Agricultural land that has a Article 4 Direction on it. The reason for the Council asking for and being given the Article 4 Direction in 2005 was to prevent this type of development. This development would be harmful to the openness, character and appearance of the the local landscape and countryside. This proposed development by it's industrial design would be obtrusive, detrimental and give an unacceptable visual impact to the local landscape and neighbouring properties. As this proposal contravenes the Article 4 Direction, I ask that this application is refused. The need for the erection of this fence to deter travellers and fly tippers, I have not seen any type of this activity.</p>
