Comments	<input type="text" value="I have already commented on this application. I wish to add that if the application was for the demolition of 3 dwellings and then permission to build 3 new dwellings with garages then this information may be incorrect, as there were never any dwellings in the first place but out buildings/ water tower. There is a video on utube from the 1970s posted a year ago which shows no such dwellings existed but outhouses opposite number 7 I believe which were water towers/outhouses not cottages. There is a Utube video called Hook kennels to Haringay which shows this. I can email you a copy. I also have a video of the original area & I know people who worked or lived in Hook lane kennels during those times. My number is [redacted] I have attached screenshots from the video."/>
