Comments	Objection to this outline planning application . This is a rural location within the Green Belt and the proposal will be set in seclusion between the two villages of Northaw & Cuffley and virtually a blot on the landscape having a detrimental visual impact upon the openness of the fields and countryside as the ridge height will be more than the buildings that are already on the site that have only this year received a certificate of lawfulness. This is a notoriously dangerous road junction where there have been many serious accidents and adding more traffic at all times of the day and night will only fuel disaster particularly as cars from the proposed site will be used onto this already traffic sensitive B156 road to access amenities and schools that are not within walking distance of the proposal.
