Comments	<p>This land is green belt, therefore how can planning permission be granted for this development. This development would cause significant traffic issues in and around cuffley where there is already so much traffic and no infrastructure to improve this in place. There is not enough schools locally to accompany this development, people that live in cuffley are struggling to get their children into local schools as it is, without potentially adding another 30-40 minimum children to the list, this is a whole school years worth of extra places required. The local doctors cannot cope with the volume of people already using the surgeries, how will it cope with a potential 60 or more people. Cuffley is a village and we want it to stay that way, stop trying to spoil our lovely village by adding more housing 'green belt' is there for a reason, don't break the rules.</p>
