**Comments** 

Surely this site remains in breach of the HELAA process. It is not within or adjoining a settlement that is inset from the Green Belt and the current employment opportunities would be lost and damage contribution to the rural economy. It would have detrimental impact to the Northaw Common Parkland and contamination issues could arise from current use. Public transport is non existent at this site and there would be absolute increase in road traffic arising therefrom at a point where an already overloaded junction is sited. Opportunistic and

unsympathetic.
