Comments	<input type="text" value="I would object to this development in this rural location. There are no bus routes along this road. No footpaths. To cycle along there would be very precarious. The bridleway mentioned several times in very undulating and takes more than 5 minutes to reach Northaw. No one would walk along there in darkness or in wet weather, it can get very muddy. So you are left with travel by car! They do not look like they would be affordable homes either. Wildlife sites all around. Just because it is called 'scrub' land does not make it fit for development. Unsustainable."/>
