<b>Comments</b>	<p>I am very concerned about the plans submitted as this island development, which goes against the national planing policy, could lead , if allowed, to even greater loss of the green belt in the future. The position of this housing development would force people to use their cars for shopping, schools, GP, work etc. as it is so far from any amenities, which would put an even greater strain on an already overburdened road system. I cannot see that these plans come under the 'very special circumstances' rule for green belt development and therefore they cannot justify the destruction of this area of green belt land.</p>
