<b>Comments</b>	<input type="text" value="Although the proposed facility is small compared to the overall footprint of the Ocado site, it is in close proximity to a number of residential streets within Salisbury Village. I do not know exactly what activities are envisaged in the vehicle maintenance facility. Are these likely to involve significant amounts of noise, such as power tools, or banging and bashing? If so, will the noise be a significant addition to existing noise from the site? i believe a noise assessment is crucial."/>
