Comments	18/10/2018 - Lorraine Davis The requirements for refuse will be 2 x 360l bins and ideally 3 x 360l or 4 x 240l Recycling bins at a cost of ?40.00 each bin. Dimensions of 360l bins being: 75 cm W, 81cm D, 107cm H Please be advised that with shared facilities like this, contamination of recycling bins is a potential problem as not all individuals are as like minded and if recycling bins become contaminated they will not be emptied unless the contamination is removed or someone pays for them to be emptied. It is not compulsory to provide recycling facilities and there is a neighbourhood recycling centre close by where residents can take their recyclables if so inclined. Something to consider. If recycling is required show modified plan to show ability to store the receptacles I have recommended.
