- (j) the development would include the provision of visible support structures on or attached to the exterior of the dwellinghouse upon completion of the development; or

-No visible support structures are required

- (k) the development would include any engineering operations other than works within the curtilage of the dwellinghouse to strengthen its existing walls or existing foundations.

-The development will not include any engineering works outside the curtilage of the dwellinghouse.

CONDITIONS

AA.2.—(1) Development is permitted by Class AA subject to the conditions set out in sub-paragraphs (2) and (3).

(2) The conditions in this sub-paragraph are as follows—

- (a) the materials used in any exterior work must be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse;

-The materials will be of similar appearance

- (b) the development must not include a window in any wall or roof slope forming a side elevation of the dwelling house;

-The development does not include a window on a side elevation

- (a) the roof pitch of the principal part of the dwellinghouse following the development must be the same as the roof pitch of the existing dwellinghouse; and

-The roof pitch matches the existing

- (b) following the development, the dwellinghouse must be used as a dwellinghouse within the meaning of Class C3 of the Schedule to the Use Classes Order and for no other purpose, except to the extent that the other purpose is ancillary to the primary use as a dwellinghouse.

-The use as a dwelling house remains the same
