### Important – Planning permission and notices of consent

### **Compliance with conditions**

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee may be payable for each request to discharge conditions.

For advice on any of these matters, please contact the duty planning officer or the case officer at Welwyn Hatfield Borough Council, Campus East, The Campus, Welwyn Garden City, AL8 6AE or by email planning@welhat.gov.uk between 0900 – 1100 daily.

### 1. POSITIVE AND PROACTIVE STATEMENT

The decision has been made taking into account, where practicable and appropriate the requirements of paragraph 38 of the National Planning Policy Framework and material planning considerations do not justify a decision contrary to the development plan (see Officer's report which can be viewed on the Council's website or inspected at these offices).

### Informative(s)

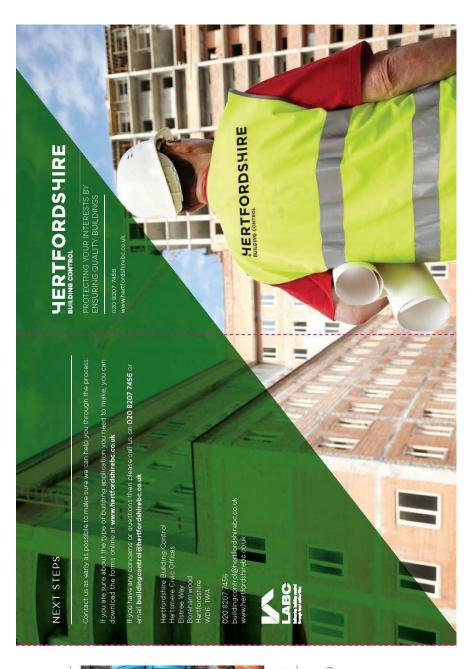

1. This permission does not convey any consent which may be required under any legislation other than the Town and Country Planning Acts. Any permission required under the Building Regulations or under any other Act, must be obtained from the relevant authority or body e.g. Fire Officer, Health and Safety Executive, Environment Agency (water interest etc.) Neither does this permission negate or override any private covenants or legal interest (easements or wayleaves) which may affect the land.

2. The planning authority has determined the application on the basis of the information available to it but this does not warrant or indicate that the application site is safe or stable or suitable for the development proposed, or that any nearby land is structurally stable. The responsibility for safe and suitable development rests upon the developer and/or land owner and they should take expert advice from properly qualified experts to ensure that the historic chalk mining activities in the area will not adversely affect the development.

## WHY HERTFORDSHIRE BUILDING CONTROL?

knowledgeable team of surveyors, and also from the investment made in the community by Local Authorities. Hertfördshire Building Control are owned by seven local authorities in Hertfördshire. In effect, as a resident in Hertfördshire, you own Hertfördshire Building authorities who reinvestitinto our communities, which you as a resident will benefit from. Therefore, by using our services you benefit from our experienced and Control. Any profit we make is returned to those local

Being accountable to the public in this way means that we will not be compromised by people or organisations, becoming dangerous as a result of poor building practices and improper inspections - we are the people who are called in to ensure that the area is made safe and when things go wrong - for example buildings and further losses minimised. Use Hertfordshire Building Control early on in your project to **prevent** such occurrences rather than having us being called in to **cure** them.

# WHAT HERTFORDSHIRE BUILDING CONTROL OFFERS:

- A truly independent service working on behalf of the property owner and accountable to the residents of Hertfordshire;
- Surveyors with the skills and experience to lead the compliance process ensuring
  - that your property meets the standards required by Building Regulations A team with the capacity to provide a responsive service, ensuring that your
- project will be inspected when it needs to be and will not be held up. The technology to increase surveyor time on site and improve our service to
- our customers;
- A one stop shop for all related activities including air testing, acoustic testing, engineering and SAP calculations and warranties;
  A compare that returns 100% of its profits back to Local Authorities for investment in the community.

### WHY DO I NEED BUILDING CONTROL?

There is a legal requirement that work carried out on buildings, including tataratons, extensions and garage and loft conversions are inspected and cartified by an authorised Building Control body Building Control protects the interests of the property owner ensuring that architects and builders adhere to the standards required in the Building Regulations. Sadly, there are a number of rogue operators who will out corners to save themselves money and in doing so case buildings to be unsafe, difficult to access or exit, and energy inefficient. The building control surveyor is there to ensure that standards are adhered to and to certify the work carried out. This is not only important for you when living in your property but also when you come to sall the sit could delay or prevent a sale if the appropriate certification has not been completed.

### IS THIS DIFFERENT FROM PLANNING?

Building Control is separate from planning which deals with the appearance of buildings and how they fit into their environment Your project may also need planning consent, which is a different process. You may be receiving this advice note because you have submitted plans to your Local Authority planning department, if not you will need to contact them to discuss channing requirements. Links to contact Local Authority Planning departments are on our website.

# WHAT DO BUILDING CONTROL SURVEYORS DO?

Building Control Surveyors work on behalf of the property owner and with architects, burlets and orden construction professionals to lead the compliance process, certifying that buildings conform to Building Regulations. The mission of Hertfordshire Building control is to ensure quality buildings and add value for our dustomers and communities by leading the compliance process. Essentially the surveyr protects the interests of the property owner and should therefore buildependent of the architect and/or building the compliance process. Essentially independent of the architect should be independent, or that you have carried out the necessary due diligen our out the control provider, or that you have carried out the necessary due diligence.
