Important – Planning permission and notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee may be payable for each request to discharge conditions.

For advice on any of these matters, please contact the duty planning officer or the case officer at Welwyn Hatfield Borough Council, Campus East, The Campus, Welwyn Garden City, AL8 6AE or by email planning@welhat.gov.uk between 0900 – 1100 daily.

Notice of Decision Town and Country Planning Act 1990 Town and Country Planning (Development Management Procedure) (England) Order 2015 Approval of Permission for Development

		Site Plan	19 May 2023
I2018-100-21	Α	Section drawing PV panel Kennedy & Essame Hall	30 May 2023

REASON: To ensure that the development is carried out in accordance with the approved plans and details.

Informative(s)

1. This permission does not convey any consent which may be required under any legislation other than the Town and Country Planning Acts. Any permission required under the Building Regulations or under any other Act, must be obtained from the relevant authority or body e.g. Fire Officer, Health and Safety Executive, Environment Agency (water interest etc.) Neither does this permission negate or override any private covenants or legal interest (easements or wayleaves) which may affect the land.

2. Noise Control:

- 1. All works and ancillary operations which are audible at the site boundary, or at such other place as may be agreed with the Council, shall be carried out only between the hours of 8.00am and 6.00pm on Mondays to Fridays 8.00am and 1.00pm Saturdays and at no time on Sundays and Bank Holidays
- 2. The best practicable means, as defined in section 72 of the Control of Pollution Act 1974, to reduce noise to a minimum shall be employed at all times
- 3. All plant and machinery in use shall be properly silenced and maintained in accordance with the manufacturers' instructions
- 4. All compressors shall be sound reduced models, fitted with properly lined and sealed acoustic covers, which shall be kept closed whenever the machines are in use. All ancillary pneumatic percussive tools shall be fitted with mufflers or silencers of the type recommended by the

manufacturers.

5. All machines in intermittent use shall be shut down during intervening periods between work, or throttled down to a minimum. Noise emitting equipment,

which is required to operate continuously, shall be housed in suitable acoustic enclosures.

- 6. Items of plant and equipment shall be maintained in good condition so that extraneous noise from mechanical vibration, squeaking or creaking is reduced to a minimum.
 - 7. All pile driving shall be carried out by a recognised noise reducing system.
- 8. Where practical, rotary drills and bursters, actuated by hydraulic or electric power shall be used for excavating hard material
- 9. In general, equipment for breaking concrete and the like, shall be hydraulically actuated.
- 10. 'BS 5228 Noise Control on Construction Sites' should be referred to for guidance in respect of all work carried out by the developer, their main contractor and any sub contractors.
- 11. Any emergency deviation from these conditions shall be notified to the Council without delay
- 12. Any planned deviations from these conditions for special technical reasons, shall be negotiated with Council at least 14 days prior to the commencement of the specific work.
 - 13. Permissible noise levels are not specified at this stage.

Dust control:

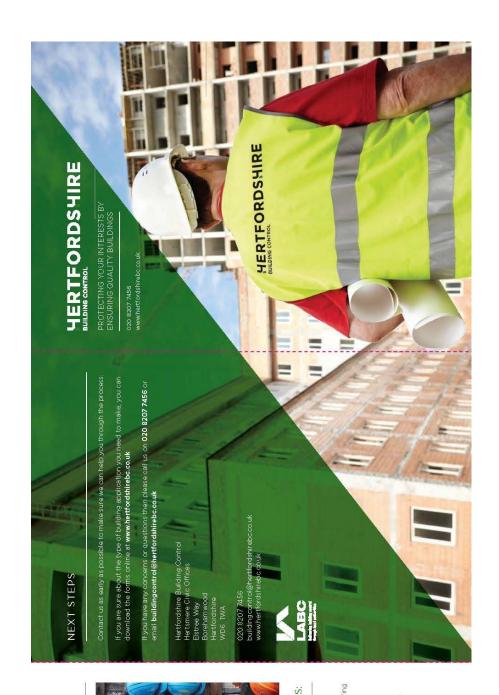

- 1. All efforts shall be made to reduce dust generation to a minimum.
- 2. Stock piles of materials for use on the site or disposal, that are likely to generate dust, shall be sited so as to minimise any nuisance to residents or neighbouring businesses. Materials for disposal shall be moved off site as quickly as possible.
 - 3. Water sprays shall be used, as and when necessary, to reduce dust from particularly "dusty" activities or stock piles.

Chris Carter

Assistant Director (Planning)

Town and Country Planning Act 1990

WHY HERTFORDSHIRE BUILDING CONTROL?

knowledgeable team of surveyors, and also from the investment made in the community by Local Authorities. Hertfordshire Building Control are owned by seven local authorities in Hertfordshire. In effect, as a resident in Hertfordshire, you own Hertfordshire Building. authorities who reinvestitinto our communities, which you as a resident will benefit from. Therefore, by using our services you benefit from our experienced and Control. Any profit we make is returned to those local

Being accountable to the public in this way means that we will not be compromised by people or organisations, becoming dangerous as a result of poor building practices and improper inspections - we are the people who are called in to ensure that the area is made safe and when things go wrong - for example buildings and further losses minimised. Use Hartfordshire Building Control early on in your project to **prevent** such occurrences rather than having us being called in to **cure** them.

WHAT HERTFORDSHIRE BUILDING CONTROL OFFERS:

- A truly independent service working on behalf of the property owner and accountable to the residents of Hertfordshire;
- Surveyors with the skills and experience to lead the compliance process ensuring that your property meets the standards required by Building Regulations

 • A team with the capacity to provide a responsive service, ensuring that your
 - project will be inspected when it needs to be and will not be held up. The technology to increase surveyor time on site and improve our service to
- A one stop shop for all related activities including air testing, acoustic testing, engineering and SAP calculations and warranties;
 A company that returns 100% of its profits back to Local Authorities for investment in the community.

WHY DO I NEED BUILDING CONTROL?

There is a legal requirement that work carried out on buildings, including alterations, extensions and garage and loft conversions are inspected and certified by an authorised Building Control body, Building Control protects the innerests of the procept yowner ensuring that architects and buildings chartol protects to the standards required in the Building Regulations. Sadly, there are a number of rogue operators win will out coveries to save themselves money and in doing so couse buildings to be unused, difficult to access or exit, and energy inefficient. The building control surveyor is there to ensure that standards are adhered to and to certify the work carried out. This is not only important for you when living in your property but. also when you come to sail it as it could deleay or prevent a sale if the appropriate certification has not been completed.

IS THIS DIFFERENT FROM PLANNING?

Building Control is separate from planning which deals with the appearance of buildings and how they fit into their environment. Your project may also need planning consent, which is a different process.

You may be receiving this advice note because you have submitted plans to your Local Authority planning department if not you will need to contact them to discuss sharing requirements. Links to contact Local Authority Planning departments are on our website.

WHAT DO BUILDING CONTROL SURVEYORS DO?

Building Control Surveyors work on behalf of the property owner and with architects, buildings and other construction professionals to lead the compliance process, certifying that buildings conform to Building Regulations. The mission of Her trordshire Building Control is to ensure quality buildings and add value for our customers and communities by leading the compliance process. Essentially the surveyor protects the interests of the procestry owner and should therefore be independent of the architect and/or builder. Make sure that it is you and not your builder or architect who selects your Building Control provider, or that you have carried out, the necessary due diligence.
