Subject: Application 6/2017/1662/ADV

WARNING: This email originated outside the WHBC Network. Please be extra vigilant when opening attachments or clicking links.

I would like to add my objections to those I am sure you have already received in respect of the application No 6/2017/1662/ADV advertising outside the dry cleaners in Cuffley.

The advertising “flags” have been in the street for some weeks and whilst they were removed from the middle of the public footway closer to the shop they are still an eyesore totally out of place in the village as well as a hazard to pedestrians.

To approve this application would I feel produce similar applications from other businesses in Station Road, I noticed a similar “flag” outside the Banc estate agents earlier this week which had been blown over and blocked a large part of the footway.

Please refuse this application and maintain the Cuffley street scene in it’s uncluttered state.
