Hi Louise,

I have taken a look at the information supplied by the applicant regarding the discharge of condition 13 part C which states:

(c) The erection of fencing for the protection of any retained tree shrub or hedge shall be undertaken in accordance with details to be approved in writing by the Local Planning Authority to comply with the recommendation of British Standard 5837:2012 before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the Local Planning Authority. No fires shall be lit within 20 metres of the retained trees and shrubs.

The information supplied by the applicant, including the plans and the Arboricultural report are sufficient to discharge this part of condition 13.

If you have any further queries please let me know.

Kind regards,

Olly
