6/2021/10079/FULL**

From [REDACTED] 5 Hill rise cuffley EN6 4ED

For the attention of [g.macinnes@welhat.gov.uk](mailto:g.macinnes@welhat.gov.uk)

Re your letter dated 17th March inviting further comments on the retrospective application.

The following points to my initial response are listed below:

Please consult the parish councils comments dated 3rd February submitted to you on the 11th February.

The original plans quoted soft landscaping which has not happened. This is not inline with current thinking and conservation issues.

We have forwarded you this email as you are head of planning because we have given up trying to contact anyone on the phone in your department for sometime now. Also the planning website is so difficult to navigate we have found it difficult to convey our comments to you even though you asked for comments We would ask you to make sure our above comments re 8 Hill Rise, are forwarded to the correct person. Please email us back that you have done this and also comment on why even the switchboard operators at welhat are asking people to complain about lack of communication the planning department has with the public as no one answers calls when the operator puts them through!!
