Dear Ms Mugova,

Whilst I have no objections to the above planning application, may I request that in the event you do grant permission, provision for contractor parking is included as a condition of planning.

Other recent development on the Ridgeway has resulted in contractors and trades parking on both the footpath and the road. The road curves up a hill in the vicinity of this application, and visibility of oncoming traffic (coming from the direction of Cuffley village) for vehicles exiting driveways on the Ridgeway is reduced to zero as a result of this parking. In addition traffic coming in the other direction have no visibility prior to the junction of Carbone/Vineyards road, and even for vehicles obeying the 40mph speed limit, have very little time to react to oncoming traffic passing parked vehicles on their side of the road.

Thank you,

Regards
