Comments	<input type="text" value="In addition to my previous comments I would like to add that I realise the developer is planning to put the bins by the side between No12 and No11 1. I am sitting in the garden area on the bench having my coffee and reading my book and the bins will be right next to me, this is not hygiene and I'm sure it goes against health and safety rules, sometimes the bins are full or some residents they leave their rubbish outside the bins and there is a strong odour I can't imagine having large bins on the other side as well right next to our relaxing area. 2. I have seen a comment from the developer saying that the garden and parking area was always shared between the properties , this is not the case, when I bought my flat it was fenced up and still is and I was told by the developer that this is the parking for 12 Tolmers Gardens and this is the garden, also it's shown on the drawings that I received from my solicitor, it was never shared with no 11 Tolmers Gardens, parking or garden"/>
