Dear Peter,

After assessment of the additional information submitted, I can now confirm that you fulfil all requirements stated and requested by the LLFA for the surface water management strategy regarding the planning application 6/2017/1176/PN11 - Blackhorse House, 36 Salisbury Square, Hatfield, AL9 5DD.

The LLFA would not have an objection in principal for this planning application.

If the LPA require further information from the Applicant, we would be happy to offer any further advice.

Kind regards,
Julia Puton
