Genesis™ Kiosk

The modern Genesis Kiosk is available in four standard-size models ready for a cost-effective turnaround and efficient delivery. These stylish kiosks are ideally suited for a variety of locations and applications including ticket sales kiosks, vending booths or security buildings.

A range of optional extras are available, including the use of vinyl graphics to personalise your kiosk for a more unique building.

Standard Buildings

- A range of four small buildings built to a fixed specification.
- High quality materials at a budget-conscious cost.
- Normally available from stock to satisfy urgent requirements.
- Three size models available for free delivery to mainland UK*.

** The 2.7 x 2.2m model is delivered using a crane-equipped vehicle for a nominal charge, based on mainland UK delivery location.*

Genesis Kiosk 1.5 x 1.5 Model

Genesis Kiosk 2.3 x 1.5 Model

Design Features

- Excellent internal finish – aesthetics and maintenance.
- Flame retardant panels.
- Textured grip surface flooring.
- Galvanised frame and ground fixing plates.
- Fork lift points built into the frame for ease of portability.
- Extremely flexible range of external graphic options.

Materials & Construction

Genesis kiosks feature modern styling and are finished internally and externally with high-quality GRP. The Genesis system also features flame retardant panels.

Sizes & Specification

Genesis is available as four standard models; 1.5 x 1.5m, 2.3 x 1.5m, 2.3 x 1.5m with Double Sliding Windows and 2.7 x 2.2m.

Delivery & Installation

Genesis kiosks are delivered to site in pre-assembled form ready for off-loading and base fixing by the customer. A galvanised steel subframe is included for ease of offloading and relocation*.

*NOTE: For 1.5 x 1.5m and 2.3 x 1.5m Models a forklift truck with 1200mm long forks (minimum) is required for customer off-loading. If you do not have access to a forklift truck, then please advise us at your time of order, so that we can arrange delivery using a crane-equipped vehicle for a small nominal charge. The 2.7 x 2.2m Model will always be delivered using a crane-equipped vehicle, again for a small nominal charge, based on a mainland UK delivery location.

Genesis™ GRP Kiosk Makes Waves in Anglesey

Anglesey is an island off the north-west coast of Wales known for its beaches and ancient sites. Its rural coastline has been designated an Area of Outstanding Natural Beauty*, and is home to many beaches and a coastal path that circumscribes the island.

Requiring Beach Warden Kiosks to be located at three of their local beaches, the Anglesey County Council contacted Glasdon. To be installed near the coastline, it was essential that the kiosks could withstand adverse weather conditions and were robust, strong and well insulated.

Three Genesis GRP 2.3 x 1.5m Kiosks were selected to successfully meet their specification.

The Marine Officer, Andrew McAvady thought that the kiosks would provide the perfect solution and an excellent focal point for the public when seeking help and information from the Beach Wardens.

The Genesis range features modern styling and is finished internally and externally in high quality GRP. This coupled with the toughened safety glass windows provided the ideal solution for the harsh coastal environment. The Genesis building system also features a galvanised subframe as standard for ease of relocation, thus enabling the customer to store the buildings at a local depot over the winter months.

To enhance brand visibility for Visit Anglesey and the Anglesey County Council, the Genesis was also supplied with custom imagery promoting activities on the coast which were placed onto all side panels.

Following installation of the units, Andrew McAvady said

"The Marine Officers and their team are very pleased with the Genesis Kiosks and feedback from the public is already very positive."
