Dear Sir / Madam

With reference to my visit to your office to discuss the above - thank you for the copies of the plans.

Please note the following for your records  
We have been told by yourselves that five people are moving in - we were told by Mrs King <sup>TOLD</sup> that only four are moving in. Mrs King <sup>TOLD</sup> is owner of the property and already we have been mislead. (on the 20/9/10) <sup>moving in date</sup>

We object in the strongest terms to the proposal on the following grounds

Students are at nos 20 and 14 now we are expected to agree to the outrageous proposition to move at No 16 - check your records to confirm this - houses opposite are also rented this way

In the last eighteen months approx there have been many incidents at no 16 and 14 - police being called for violence, threatening behaviour, drunkenness and windows smashed

All the details will be logged with the police who have given us a special no to call them.

The police are very sympathetic to our troubles perhaps you should contact them direct to see what the problems are.

The trouble seems to start when the students arrive and friends are invited to stay leading to overcrowding non stop parties, damage to property.

No one seems to police or check this this leads to a bad environment for the residents many are elderly.

If this goes ahead we will completely be boxed in, we have our own health issues and a handicapped son to consider -

WE THEREFORE OBJECT IN THE STRONGEST TERMS POSSIBLE. THE NEXT STEP IS TO SEEK LEGAL ADVICE.

We will also contact the Welwyn & Hatfield Times regarding this matter

All we require is fair play and not have the quality of life destroyed at our age.
