Dear Planning Officer,

Planning Applications S6/2010/1710/FP

(George's Field) & S6/2010/1711/FP (Viaduct
Car Park)

I have looked at details of the above two planning applications on the Borough Council's website. I am writing as a long-standing resident of Hatfield Park to register my support for them.

If permission is given and the proposed new car parks are created, I believe that they will be a great improvement on existing arrangements. A particularly important advantage of the proposals, if carried out,

would be a significant reduction in the amount of traffic coming in and out of Hatfield Park opposite the railway station, where the present state of confusion is very dangerous to both drivers and pedestrians.

Yours faithfully,
