Subject: FW: No botification of planning application and skips blocking our street

Hi,

Could I pass this to Planning pls re: the second issue. I will refer to Highways re: the skip.

Kind regards,

Jackie

Subject: No botification of planning application and skips blocking our street

Hello,

I was wondering if it was legal to park 2 skips along the side of the road for several weeks? I live on Fore Street in Old Hatfield and around 1/4 of our street has been taken up with skips and bollards for the last few weeks, outside number 7. We had no warning of this and parking has become even more of a problem than it already was. We also have no idea when we are going to get our street back!

There is also a current application on-line, which looks like a very big job, and which every other house on the street has received a letter about apart from us (case number: S6/2010/0094/LB). Please could you let me know why we didn't receive a letter about this when all of our neighbours did?

Yours faithfully,

[REDACTED]

Subject: Planning application consultation not received

Hello,

I have sent a more general enquiry to the General e-mail address for the Council, so I apologise if you get this twice.

Some work is going on at a house on our street, which is taking up quite a lot of the street. However, the point I would like to make, is firstly that on the planning database on your website it seems that the consultation period only began last week, so I was wondering why the work has been going on for at least 3 weeks already? And secondly, on the list of neighbours that received letters about the application, the whole street is listed apart from us!

While I have no fundamental objections to whatever is is they are doing, it would have been good to have had a letter about the application and for the letter to have been sent out before work commenced. Our street has been blocked up by skips and vans for the best part of a month, making the parking situation worse than it usually is.

The application in question (as far as I can see) is S6/2010/0094/LB and relates to 7 Fore Street, Hatfield. (Although there are two earlier planning applications also relating to their roof-S6/2008/0014/LB and S6/2008/0017/FP, which we didn't receive a letter about either).
