Comments:

We have no wish to comment on the size, scale or bulk of the proposed extension in green belt. However we would like to note that the proposed changes to the building contextually change the way in which the building overlooks us and reads relative to the main Northaw Place house. At the moment there are just two tiny discrete well screened bathroom windows that overlook our house. The proposed extension adds two very large bedroom windows which change our privacy setting, and actually makes the building read dominantly from that side. These windows have limited opportunity for screening due to the way the driveway is located in the lodge. We must object to the second window which is in the bedroom above the disabled shower. We would ask that this window is positioned where the staircase is, in line with the direction of the current upstairs window and the room reconfigured to accommodate this to reduce the intrusion.
