

RE: Legg Woods, Bell Bar, Brookmans Park – Grid ref - Easting 525327 Northing 204968

I met with James Hare on sight on Friday 30<sup>th</sup> December to walk around the site and discuss works which are needed. Below is what was agreed needed to during the meeting.

T1 – Ash – height 12m / spread 3m

**Notes of Condition of tree:**

Failed at base, fallen, and now laying across further trees. Tree has been marked with a pink F.

**Requested woks:**

Remove

**Reasons for woks:**

Failed and near a footpath

T2 – Ash – height 14m / spread 10m

**Notes of Condition of tree:**

Slight sign of ash die back on the right hand side of large trunk which forks over footpath. Tree has been marked with a pink F.

**Requested woks:**

Remove leaning trunk with fork over footpath. Reduce remaining by 3m (height 14-11 & span 10-7)

**Reasons for woks**

Due to safety issue as stem leaning over footpath and first signs of ash die back.

T3 – Ash – height 16m / spread 5m

**Notes of Condition of tree:**

Set in a cluster of other ash trees and has first sign of ash die back. Tree has been marked with a pink F.

**Requested woks:**

Removal

**Reasons for woks:**

Due to footpath and road construction for short term access. Re-planting will take place.

T4 – Ash – height 16m / spread 8m

**BROOKMANS PARK**  
**TREE SURGERY**

**Notes of Condition of tree:**

Has first signs of ash die back. Tree has been marked with a pink F.

**Requested works:**

Reduce crown by 3m all over (height 16-13 & span 8-5). Remove epicormic growth at base.

**Reasons for works:**

Due to size, health and location for trees, a reduction is advisable.
