Comments	<input type="text" value="I object to this application on previously stated grounds in that this is a green belt area, a large area of building would link Cuffley to Northaw and they would end up not being separate villages and would therefore lose their own character and the roads around this area are not able to take more traffic. The green belt is more important now than ever before in this time of climate change. I used to live in Cuffley and still have ties to it and still travel through it on a regular basis and would hate to see it change that much and be put under so much pressure. There is far too many building plans for a small area."/>
