

Objection letter  
391 St Albans Road West

Looking at the supplied plans the existing property doesn't not match the situation on site. Room seems to be missing that is present above kitchen area and dormer is showing with windows facing the front of the property which is not present either.

Outbuilding way bigger than what was granted in the previous plans (games room) with rules of use attached in a document. Outbuilding too close to main dwelling. If ground floor gets extended will practically connect the unlawful outbuilding with the main house. This should be well inspected prior to any decisions are made on this application.

With number of rooms being added the noise will increase and parking will become an issue.
