**** WARNING: This email originated outside the WHBC Network. Please be extra vigilant when opening attachments or clicking links ****

I am writing to object to the development of 14 houses on Wells Farm. As you know, this would mean building on a high harm Green Belt area. This development will be the thin end of the wedge for much extension into the Green Belt, with the obvious subsequent damage to the environment and loss of oxygen which the Green plants generate. Inevitably there will be a considerable increase in population, with no planned infrastructure to support it: already my grandson, a Cuffley resident, did not get a place in any of the 4 secondary schools he chose; the traffic congestion on the B156 is very heavy at peak times.

I implore you to reject this development. If it goes through, it will open the way for much more building, to the detriment of the environment and the existing population of Northaw and Cuffley. It will be irreversible.

Yours sincerely
