Subject: Re: Coverack development on the Ridgeway

Yes, I did this, and the police say it is the responsibility of the Council. I spoke to officers at Hatfield Police Station.

Nobody taking responsibility for this dangerous parking issue will be an interesting highlight of an inquest or investigation in the event of a death.

I would like to therefore formally object to the application for the land adjacent to 50 Coverack, which I first contacted you about, on the basis that there is no enforcement or monitoring of parking related to development within the borough, and that therefore this development and its road positioning will inevitably result in a serious danger to road users.

Regards
