Dear Sirs

I am writing with regard to the above application which I understand is being considered for a third time, following the outcome of the judicial review.

Many local residents are appalled at the actions of Welwyn Hatfield in this case, which we consider to be highly dubious.

This site is located in an area of high harm green belt and there is no justification for it to be passed.

Note that if it is passed, we shall vigorously pursue an investigation of the affairs and conduct of committee members since, based on the history of this case, we can only conclude that highly questionable conduct has taken place, what other reason could there possibly be for this unmitigated shambles?

Be in no doubt of our determination in this regard.
