Miriam

Please treat this email as formal notification of our intent to remove one sycamore (T1 on plan) and two elders (T2 and T3) on the plan.

The trees are near to the Orchard site we looked at last year and I attach some photos I took when I visited the site.

The trees are all damaging the boundary wall, and the damage will get worse as the trees mature.

I can arrange access to either site as you wish.

Thanks
Glen
