**SCALE**  
1:250 @ A2

**NOTES:**  
Stem diameters are not drawn to scale. See schedule for dimensions  
This drawing must be read in colour

This drawing is based on the topographic survey supplied to us by the client. We have taken the position of the trees included in the survey to be accurate. The following trees were not included on the topographic survey and their locations shown are indicative only: 9, 30, 40, 41, 43, 44, 45, 54, 52, 123, 128, 134, 135

**NOTE:**  
There are numerous trees within the woodland area which have not been included in the topographic survey. These trees are predominantly sycamores with stem diameters below 200mm diameter. Trees not included in the survey are of low significance and should not constrain layout.
