Subject: Application Ref 6/2016/0394/FULL - The Spinney High Road Essendon

Good Afternoon

As the owners of the adjoining property, we wanted to write to express our support for the above application. We feel the design for two houses is much more attractive than the permitted development scheme and more in keeping with the other properties nearby. The golf club adjoining The Spinney and Essendon Place opposite have both implemented schemes where the footprint of other less attractive buildings was used to

create new builds more in keeping with the village and local area and indeed in both cases the main buildings were listed which meant the changes proposed were necessarily very carefully monitored. There is also a current development at the other end of the village at Hitchin's Yard which has also taken the footprint of office and workshops to create an attractive scheme of several houses.

We feel there is significant precedent, adjoining, opposite and the other end of the village and we hope you will be able to consider approving this application which will create a valuable additional property in the village.

Kind Regards

Nigel and Jane Oram

Bedwell End

Essendon
