

Planning Consultation Memo

Date	Planning Officer	Environmental Health Officer
15/12/2021	Ms Ashley Ransome	Terry Vincent
Planning Application Number	Worksheet Number	
6/2021/3149/COND	WK128395	

Address: Plot 6000, Land adjacent to the Porsche Garage Hatfield Hatfield Business Park AL10 9UA

Application Details: Approval of condition 17 (external lighting) on planning permission 6/2019/2782/VAR

Considerations relevant to Environmental Health for this application

Review submitted information in relation to condition 17.

Description of site and discussion of considerations

Condition 17 states the following:

17. No floodlighting or other form of external lighting shall be installed unless it is in accordance with details which have previously been submitted to and approved in writing by the Local Planning Authority. Such details shall include location, height, type and direction of light sources and intensity of illumination. Any lighting which is so installed shall not thereafter be altered without the prior consent in writing of the Local Planning Authority other than for routine maintenance which does not change its details.

REASON: To protect the living conditions of future occupiers of the site and existing residential properties in the near vicinity to the development in accordance with Local Plan Policies D1 and R20 of the Welwyn Hatfield District Plan 2005, Policy SADM18 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016 and the National Planning Policy Framework 2019.

Additional comments:

The information (plan) that has been submitted, does not show any of the following information:

- location, height, type and direction of light sources and intensity of illumination.

Therefore, I am unable to assess compliance with the condition.

Conclusion

Recommend planning condition 17 is not discharged

Informatives

Demolition/construction works

1. All works and ancillary operations which are audible at the site boundary, or at such other place as may be agreed with the Council, shall be carried out only between the hours of :
8.00am and 6.00pm on Mondays to Fridays
8.00am and 1.00pm Saturdays
and at no time on Sundays and Bank Holidays
2. The best practicable means, as defined in section 72 of the Control of Pollution Act 1974, to reduce noise to a minimum shall be employed at all times
3. All plant and machinery in use shall be properly silenced and maintained in accordance with the manufacturers' instructions
4. All compressors shall be sound reduced models, fitted with properly lined and sealed acoustic covers, which shall be kept closed whenever the machines are in use. All ancillary pneumatic percussive tools shall be fitted with mufflers or silencers of the type recommended by the manufactures.
5. All machines in intermittent use shall be shut down during intervening periods between work, or throttled down to a minimum. Noise emitting equipment, which is required to operate continuously, shall be housed in suitable acoustic enclosures.
6. Items of plant and equipment shall be maintained in good condition so that extraneous noise from mechanical vibration, squeaking or creaking is reduced to a minimum.
7. All pile driving shall be carried out by a recognised noise reducing system.
8. Where practical, rotary drills and bursters, actuated by hydraulic or electric power shall be used for excavating hard material
9. In general, equipment for breaking concrete and the like, shall be hydraulically actuated.
10. 'BS 5228 Noise Control on Construction Sites' should be referred to for guidance in respect of all work carried out by the developer, their main contractor and any sub contractors.
11. Any emergency deviation from these conditions shall be notified to the Council without delay

12. Any planned deviations from these conditions for special technical reasons, shall be negotiated with Council at least 14 days prior to the commencement of the specific work.

13. Permissible noise levels are not specified at this stage.

Dust control

1. All efforts shall be made to reduce dust generation to a minimum
2. Stock piles of materials for use on the site or disposal, that are likely to generate dust, shall be sited so as to minimise any nuisance to residents or neighbouring businesses. Materials for disposal shall be moved off site as quickly as possible.
3. Water sprays shall be used, as and when necessary, to reduce dust from particularly "dusty" activities or stock piles.
