**Objection**

Application Ref 6/2016/1934/House  
Proposed development at: 6B Hill Rise, Cuffley, Potters Bar, EN6 4EE

Dear Sirs

With regard to the above proposal, I have a number objections:

1. The existing roof plan and proposed is still too high this was meant to be a flat roof
2. This roof has been altered to the proposed plan already
3. Even though it has been altered it makes NO difference to our light in the garden.
4. The proposal still has a window over looking my property this was to be bricked up. I have serious concern as this looks directly into my daughter's room, my dressing room and into our family lounge.
5. We feel that this application is just someone trying to 'bend the rules' to get his own way.
6. May I remind you that this was built adjacent to my boundary without planning permission. I purchased this property on 22<sup>nd</sup> October 2015 and no such building showed up on our legal search. If it had we would have had serious thoughts about its purchase.

Regards

Mr & Mrs Thurley
