Dear Sir/Madam,

Planning Application ref. 6/2017/0489/MAJ

Erection of 2m high fencing.

In order to be able to decide whether to object to the above proposal, there are a number of queries to which I cannot find the answers on your website. I regret that the complexity of your website has not yielded a view of the details of the proposal!

Therefore, please avail me of the required information as early as possible.

- 1) Please supply a full description and specification of the proposed fence. If the Applicant has not supplied these details, please request the name of the manufacturer with type/product number.
- 2) Will the proposed fence be sited exactly on the rear boundary of each property? If not, what will be the gap between the proposed and existing fences?
- 3) Who will remove the existing fences, shrubs, walls, brambles, etc.?
- 4) Will there be a support posts at each side boundary?
- 5) Will the Applicant provide a permanent link from each side boundary to the proposed fence?
- 6) When is the work likely to proceed?
- 7) Why has the proposed fencing ceased at No. 45?

I should be pleased to receive your detailed response at your earliest convenience.

Many thanks in anticipation of your kind assistance and advice.

Yours faithfully

Stephanie Stokes
