Terms: Subject to CFS standard published conditions of sale applicable to the goods or services described above, a copy of which can be supplied on request. The inspection or service is carried out in accordance with the relevant standard or to agreed contractual requirements as appropriate, (Hosereel service includes only that equipment from the hose shuts-off nozzles back up to and including the hosereel isolating valve) Customers are reminded that it is their responsibility to carry out regular checks of their fire equipment to ensure that it is not obviously damaged, defective or leaking and that it is visible, unobstructed and readily available for use.
