Important – Planning permission and notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee may be payable for each request to discharge conditions.

For advice on any of these matters, please contact the duty planning officer or the case officer at Welwyn Hatfield Borough Council, Campus East, The Campus, Welwyn Garden City, AL8 6AE or by email planning@welhat.gov.uk between 0900 – 1100 daily.

**Notice of Decision
Town and Country Planning Act 1990
Town and Country Planning (Development
Management Procedure) (England) Order 2015
Approval of Permission for Development**

To: Mr Hayden Todd

Application No: 6/2022/0441/FULL

Date of Approval: 10 May 2022

WELWYN HATFIELD BOROUGH COUNCIL, in pursuance of powers under the above mentioned act, hereby GRANT, subject to the development beginning not later than 3 years from the date hereof to: -

Development: Retrospective change of use to plant hire (resubmission following refusal of 6/2021/1380/FULL)

At Location: 12 Southfield Welwyn Garden City AL7 4ST

Applicant: Mr S. Harvey

Application Date: 24 February 2022

In accordance with the conditions listed below: -

1. A minimum of 13 parking spaces within the parking areas as shown on drawing number SFD/02 must retained permanently for the parking of vehicles for the occupiers of the development hereby permitted and shall not be used for any other purpose.

REASON: To ensure that the development has acceptable car parking provision, in accordance with Policy M14 of the Welwyn Hatfield District Plan, Supplementary Planning Guidance – Parking Standards 2004, Interim Policy for Car Parking Standards and Garage Sizes 2014, Policy SADM12 of the Welwyn Hatfield Borough Council Draft Local Plan Proposed Submission August 2016 and the National Planning Policy Framework.

2. The turning area shown by the Swept Path Analysis Drawing No. SP02 Rev. A of the Transport Survey must be retained and kept clear at all times for loading and unloading purposes of all deliveries, servicing and operational vehicles at the site.

REASON: To allow for the efficient delivery of goods (NPPF para 112(d)) and prevent conflict with neighbouring areas, pedestrians, cyclists and vehicles (NPPF para 112 (c)).

DRAWING NUMBERS

3. The development/works shall not be started and completed other than in accordance with the approved plans and details:

Plan Number	Revision Number	Details	Received Date
SFD/01		Location Plan	24 February 2022
SFD/02		Block Plan	6 May 2022
SFD/03		Floor plans	6 May 2022
2104-024 TN02		Transport Survey	6 May 2022

REASON: To ensure that the development is carried out in accordance with the approved plans and details.

1. **POSITIVE AND PROACTIVE STATEMENT**

The decision has been made taking into account, where practicable and appropriate the requirements of paragraph 38 of the National Planning Policy Framework and material planning considerations do not justify a decision contrary to the development plan (see Officer's report which can be viewed on the Council's website or inspected at these offices).

Informative(s)

1. This permission does not convey any consent which may be required under any legislation other than the Town and Country Planning Acts. Any permission required under the Building Regulations or under any other Act, must be obtained from the relevant authority or body e.g. Fire Officer, Health and Safety Executive, Environment Agency (water interest etc.) Neither does this permission negate or override any private covenants or legal interest (easements or wayleaves) which may affect the land.
2. The granting of this permission does not convey or imply any consent to build upon or access from any land not within the ownership of the applicant.
3. All works and ancillary operations which are audible at the site boundary, or at such other place as may be agreed with the Council, shall be carried out only between the hours of :

8.00am and 6.00pm on Mondays to Fridays
8.00am and 1.00pm Saturdays
and at no time on Sundays and Bank Holidays

The best practicable means, as defined in section 72 of the Control of Pollution Act 1974, to reduce noise to a minimum shall be employed at all times

All plant and machinery in use shall be properly silenced and maintained in accordance with the manufacturers' instructions.

All compressors shall be sound reduced models, fitted with properly lined and sealed acoustic covers, which shall be kept closed whenever the machines are in use. All ancillary pneumatic percussive tools shall be fitted with mufflers or silencers of the type recommended by the manufactures.

All machines in intermittent use shall be shut down during intervening periods between work, or throttled down to a minimum. Noise emitting equipment, which is required to operate continuously, shall be housed in suitable acoustic enclosures.

Items of plant and equipment shall be maintained in good condition so that extraneous noise from mechanical vibration, squeaking or creaking is reduced to a minimum.

Any pile driving shall be carried out by a recognised noise reducing system.

Where practical, rotary drills and bursters, actuated by hydraulic or electric power shall be used for excavating hard material.

In general, equipment for breaking concrete and the like, shall be hydraulically actuated.

'BS 5228 Noise Control on Construction Sites' should be referred to for guidance in respect of all work carried out by the developer, their main contractor and any sub contractors.

Any emergency deviation from these conditions shall be notified to the Council without delay.

4. All efforts shall be made to reduce dust generation to a minimum.

Stock piles of materials for use on the site or disposal, that are likely to generate dust, shall be sited so as to minimise any nuisance to residents or neighbouring businesses. Materials for disposal shall be moved off site as quickly as possible.

Water sprays shall be used, as and when necessary, to reduce dust from particularly "dusty" activities or stock piles.

Any vegetation clearance should be undertaken outside the nesting bird season (March to August inclusive) to protect breeding birds, their nests, eggs and young. If this is not practicable, a search of the area should be made no more than two days in advance of vegetation clearance by a competent Ecologist and if active nests are found, works should stop until the birds have left the nest.

Town and Country Planning Act 1990

WHY HERTFORDSHIRE BUILDING CONTROL?

Hertfordshire Building Control are owned by seven local authorities in Hertfordshire. In effect, as a resident in Hertfordshire, you own Hertfordshire Building Control. Any profit we make is returned to those local authorities who reinvest it into our communities, which you as a resident will benefit from. Therefore, by using our services you benefit from our experienced and knowledgeable team of surveyors, and also from the investment made in the community by Local Authorities.

Being accountable to the public in this way means that we will not be compromised by people or organisations, and when things go wrong - for example buildings becoming dangerous as a result of poor building practices and improper inspections - we are the people who are called in to ensure that the area is made safe and further losses minimised.

Use Hertfordshire Building Control early on in your project to **prevent** such occurrences rather than having us being called in to **cure** them.

WHAT HERTFORDSHIRE BUILDING CONTROL OFFERS:

- A truly independent service working on behalf of the property owner and accountable to the residents of Hertfordshire;
- Surveyors with the skills and experience to lead the compliance process ensuring that your property meets the standards required by Building Regulations
- A team with the capacity to provide a responsive service, ensuring that your project will be inspected when it needs to be and will not be held up.
- The technology to increase surveyor time on site and improve our service to our customers;
- A one stop shop for all related activities including air testing, acoustic testing, engineering and SAP calculations and warranties;
- A company that returns 100% of its profits back to Local Authorities for investment in the community.

NEXT STEPS

Contact us as early as possible to make sure we can help you through the process. If you are sure about the type of building application you need to make, you can download the forms online at www.hertfordshirebc.co.uk

If you have any concerns or questions then please call us on **020 8207 7456** or email buildingcontrol@hertfordshirebc.co.uk

HERTFORDSHIRE
BUILDING CONTROL

WHAT IS BUILDING CONTROL?

Building Control ensures that architects, builders and other professionals in the construction industry adhere to the Building Regulations when designing and building structures. The Building Regulations set the standards for the design and construction of buildings to ensure that they are safe, accessible and energy efficient.

DOES MY PROJECT NEED BUILDING CONTROL APPROVAL?

Projects that involve extensions, structural changes, loft or garage conversions or changes to electrical wiring will - in the vast majority of cases - need Building Control certification. It is a legal requirement.

To check whether your project requires building control approval please call one of our qualified surveyors on **020 8207 7456** who will be happy to advise you. Or contact us at the following email address buildingcontrol@hertfordshirebc.co.uk. Alternatively, there is a lot of useful advice contained on our website: www.hertfordshirebc.co.uk.

WHY DO I NEED BUILDING CONTROL?

There is a legal requirement that work carried out on buildings including alterations, extensions and loft conversions are inspected and certified by an authorised Building Control body. Building Control protects the interests of the property owner ensuring that architects and builders adhere to the standards required in the Building Regulations. Sadly, there are a number of rogue operators who will cut corners to save themselves money and in doing so cause buildings to be unsafe, difficult to access or exit, and energy inefficient. The building control surveyor is there to ensure that standards are adhered to and to certify the work carried out. This is not only important for you when living in your property but also when you come to sell it, as it could delay or prevent a sale if the appropriate certification has not been completed.

IS THIS DIFFERENT FROM PLANNING?

Building Control is separate from planning which deals with the appearance of buildings and how they fit into their environment. Your project may also need planning consent, which is a different process.

You may be receiving this advice note because you have submitted plans to your Local Authority planning department; if not you will need to contact them to discuss planning requirements. Links to contact Local Authority Planning departments are on our website.

WHAT DO BUILDING CONTROL SURVEYORS DO?

Building Control Surveyors work on behalf of the property owner and with architects, builders and other construction professionals to lead the compliance process, ensuring that buildings conform to Building Regulations. The mission of Hertfordshire Building Control is to ensure quality buildings and add value for our customers and communities by leading the compliance process. Essentially the surveyor protects the interests of the property owner and should therefore be independent of the architect and/or builder. Make sure that it is you and not your builder or architect who selects your Building Control provider, or that you have carried out the necessary due diligence.
