<b>Comments</b>	<input type="text" value="I will see the proposed large glass development from my bedroom window. I have several concerns. 1. The glass structure proposed diminishes the character of this Louis de soisson building on the southern aspect significantly R29. 2. I am concerned about extra light pollution from this glass building as I suffer from schizoaffective disorder. Evening activities at the church could affect my ability to sleep in the winter. 3. The extension seems more for social use than one specifically designed for church and prayer use. 5, Following on from this added noise is likely. Finally, privacy with views towards my bedroom especially in winter would effect my use of my bedroom. In conclusion, a brick build would be in keeping with the present structure in this conservation area. In its present form, I object to the development proposed for the reasons above. Honestly the proposed development is just a big glass box cafe."/>
