Comments	<input type="text" value="I support this application by BPGC for the small development of houses on its land adjacent to Golf Club Road. Clearly this is a carefully considered application and the implications that it may have on the immediate vicinity are addressed through its comments on ecology, transport and a traffic management solution. I believe this development will improve the road and the proposal to add significant tree plantation is sympathetic to the surrounding area and the sustainability of the development. I also strongly support the principles of the development, namely to invest into Brookmans Park Golf Club, which is an important part of the local community. The golf club provides a great amenity, and encourages activity from all members of the area, including a thriving juniors section. The success of the golf club in this capacity will no doubt help create further jobs and opportunity for local people."/>
