<b>Comments</b>	<input type="text" value="The release of this land from the green belt is unlikely to make too much difference to the local area as it is currently an unused piece of land serving little purpose in its current status, it is bounded by golf club land and other housing and the development is low density. It is not accessible to the public and it would be difficult to use it within the golf club itself. The Golf club provides a service within the community and the funds raised from the release of this land will be re-invested in an amenity that will continue to serve the local people and provide employment."/>
