<b>Comments</b>	<input type="text" value="The Golf club road is a single very narrow road, where cars already struggle to get past. During busy times i.e after school this would pose a risk to the school children walking out of the school heading towards Brookmans Ave. School traffic is already causing issues twice a day, at that junction. Both Brookmans avenue and Georges Wood road are private roads, the cost of the up keep is down to the residents. If this development is allowed the residents cost of repair increases as the weight limits of building lorries cause damage to the roads and the frontages of our private homes. The junction is a slightly staggered junction &amp; this already is a bit of a danger never mind with the additional congestion. How is this being allowed on Green Belt when other areas are being declined building on smaller sites. We strongly object"/>
