<b>Comments</b>	<p>I write in support this planning application. I have reviewed the application submitted by Brookmans Golf Club Limited in respect of outline planning for a small development of houses on its land adjacent to Golf Club Road. I am particularly impressed by the work that has gone into support the application, I believe that the proposed scheme would be enhancing to the area in general, it is sympathetic to the surrounding countryside and nearby properties and in particular has included a well thought through solution to traffic management on Golf Club Road. The golf club plans will not detract from the natural landscape, in fact it will enhance an otherwise unused piece of land. I also note that significant tree planting will take place, another compelling feature of the application. I also note with interest and support the principles of the development as described in the application, it will add jobs and allow the club to provide an improved offering to the local community</p>
