<b>Comments</b>	<p>Like most clubs BPGC has been struggling to compete and update its facilities due to the financial constraints with running a club with its dated facilities and maintaining this mature parkland. This development would provide a much needed cash injection to ensure the future stability of the club and ensure that club continues to be an integral part of the village for future generations and avoid what happened to Potters Bar Golf Club and the eventual closure. The club have put a lot of time and energy into designing this development which is sympathetic to the location and have offset this by planting trees and hedges around the course. The money raised will be used for future projects, improve, and enhance the existing facilities which will benefit local residents.</p>
