<b>Comments</b>	Hello I support the development as the sale of the land will enable the golf club to make much needed changes / improvements. These include the renovation of the clubhouse to provide a function facility to benefit the needs of the local community as well as the golf club. The development of world class practice facilities to enable more people young and old alike to get into golf. To enhance and protect a spectacular area of greenbelt and a landscape laid out by Humphrey Repton, one of England's greatest landscape designers. To enable the club to continue to develop its environmental programme which has already seen it awarded the Queens Green Canopy Award for tree planting and a recent project of bee keeping to produce local honey at the club.
