Comments	<p>Golf Club Road is-in the most the density area of Brookmans Park The roads of Brookmans Avenue , Georges Wood Road and Mymms Drive meet up at the entrance of the Golf Club Road which recently 6 houses have been built which has been causing an amount of traffic jams from early morning to late evening when the Club closes . Having extra 14 houses built in the road and each house have 2 cars each its going to cause a much more chaos and severe activity with the school children and golfers going in and out through out the All these are private roads and not as wide as indicated in the application forms. The roads are used with priority first to pedestrians , the cyclists of the Brookmans Park Cycling Club , local occupants with their cars and parents coming from all over Hertfordshire to drop their children at the Chancellors School (553 children plus teachers). There is a gate to the school near the entrance of the Golf Club Road and 6 new houses have been built.</p>
