<b>Comments</b>	<input type="text" value="As a parent of a child at the school I appreciate the efforts made to enhance the community with their application.The objections raised by some neighbours of the school stem from a TOTAL misinterpretation of the application.The school is REUTILISING the building, NOT EXPANDING the school. Surely that is more environmentally beneficial? It's important to remember that schools are a vital part of any neighbourhood and they play a crucial role in shaping the future of all our children. It's also worth noting that the school was there LONG before most current residents moved to the area/purchased a house in such close proximity to the school, did they not do their due diligence before purchasing? I understand from some residents of Pine Gr that their neighbours intentionally obstruct Pine Gr during school dropoff/pick-up times. This presents challenges for all drivers/pedestrians, resulting in longer idling times/increased pollution which exacerbates pollution rather than alleviating it."/>
