Details of the pre-application advice received
"She said we need space for 2 cars (she said 2.5 cars, then said 2), and we should demonstrate with measurements that the current garage is not suitable for modern cars. She mentioned 5 meters, but confirmed they are guidelines and we have the option to do a pre-planning application or submit the application and wait for the result. She mentioned that secure bike space may not make any difference. With regards to review or comments on the application, she said it depends on what the problem was and again mentioned the pre-planning application."
