Subject: Request for extension of consultation period for application ref 6/2023/2418/OUTLINE - Firs Wood Close

Dear Mr Elmore

In view of the scale of this proposed development and the number of documents submitted to support the application, the 3 week consultation period is inadequate. The Christmas/ New Year holiday period effectively reduces the period further. An extension to mid February seems more suitable. Additionally site notices would seem appropriate. These were mounted at the Cuffley Bellway site which is a similar sized development.

Kind regards
